

"You're On Our Radar"

Speedgun® Pro

Hand-held / Dash-mount Radar

POLICE RADAR • POLICE LASERS • SURVEY LASERS • SPEED SIGNS

Adaptable to Your Needs

The **Speedgun Pro** can be used as a hand-held radar, or can be mounted in a vehicle for moving use. For hand-held use, the radar can be powered by the vehicle, or it can operate from internal rechargeable batteries enclosed in the radar's removable handle. The radar can be ordered in stationary/moving and stationary-only versions - or BOTH - depending on your department's needs. **Speedgun Pro** is small and lightweight, outperforming the competition in both categories.

Hand-held Radar (Stationary)

Moving Traffic Radar
